Graduate Student - Department of Computer Science
University of Victoria

December 22, 2019

WarnerMedia,
United States – Massachusetts

Subject: Application for Internship for Summer 2020

Dear Hiring Manager,

I would like to show my interest for the position of Game Server Software Engineer Intern in Summer 2019 at WarnerMedia. I am a full-time first-year student of Master of Computer Science at the University of Victoria. I also have 3 years of full-stack software development experience with software product companies which have helped me build a solid foundation in computer science, with strong competencies in algorithms, data structures, and programming languages. Industry experience has also strengthened my analytical and troubleshooting skills. I also have 1.5 years of esports experiences, I am very passionate about gaming.

From very early childhood two of my major passions in life were technology and gaming. I enjoyed solving problems and writing code, hence I knew I want to pursue a career in Computer Science and as I loved gaming, I wanted to be part of the game development industry in the future. Working in game development industry would be like a dream come true for me.

Altogether, I am convinced that my strong background in computer science, together with my passion for games would be of a great fit for the position. Thank you for your time. If you have any questions or want to follow up with an interview, you can contact me on the email given above.

Most sincerely,

Sunil Kumar
