Square Enix,
Montreal, Canada

Subject: Application for Technology Programmer Intern for Summer 2020

Dear Hiring Manager,

I would like to show my interest for the position of 'Technology Programmer Intern' in Summer 2019 at Square Enix Montreal, Canada. I am a full-time first-year student of Master of Computer Science at the University of Victoria. I also have 3 years of full-stack software development experience with software product companies which have helped me build a solid foundation in computer science, with strong competencies in algorithms, data structures, and programming languages. Industry experience has also strengthened my analytical and troubleshooting skills. I also have 1.5 years of esports experiences, I am very passionate about gaming.

From very early childhood two of my major passions in life were technology and gaming. I enjoyed solving problems and writing code, hence I knew I want to pursue a career in Computer Science and as I loved gaming, I wanted to be part of the game development industry in the future. Working at Square Enix would be like a dream come true for me.

I am a big fan of Square Enix, have gotten addicted to many of its games especially the Final Fantasy series. I believe Square Enix is one of the companies which always working on the most cutting-edge game development projects that aim at improving people's experiences with games. As Square Enix is diverse and far-reaching it would allow me to have new challenges on a regular basis and working out innovative solutions.

Altogether, I am convinced that my strong background in computer science, together with my passion for games would be of a great fit for the position. Thank you for your time. If you have any questions or want to follow up with an interview, you can contact me on the email given above.

Most sincerely,

Sunil Kumar
